

	Kobra X	Kobra X Combo ** see footnote	Kobra 4	Kobra 4 Combo
Number of Colors	4	7	1	4
Dryer	No	4 of 7 spools	No	4 spools
RFID reader	Yes	(2) Printer and Ace 2 Pro	No	In Ace 2 Pro
Speed (mutli-color) # see footnote	Fast	Fast on first 3 spools Extrememely slow on Ace 2 Pro spools	N/A	Slower purges than Kobra X standalone
Comments	Good all around setup for 4 color printing	Adds 3 more colors & dryer to base Kobra X. Ace 2 Pro is slow and quirky	Great single color printer which should have a reliable printhead	Adds dryer and 4 colors to the Kobra 4. Does not have the slow performance as it does mated to to Kobra x

Footnotes

** Kobra X combo running with filament detection module

This is multicolor rating only. Although both X and 4 printheads operate at at same speed, the Kobra 4 is slightly faster on single color prints as the purge/startup time is less. On multi-color the Kobra X combo suffers because of the poor performance of the Ace 2 Pro.
